

Excellence & Expertise  
in Motorcampers™

# TORINO

Trakka has adopted world-leading technologies to develop the Fiat Torino, a stunning compact but fully-equipped Motorcamper, ideal for Australia's unique travel environment.

The Torino is a car-like motorcamper with a powerful & economical 3.0L turbo diesel engine. It includes all the luxury features found in a much bigger Motorhome, such as full standing room, separate kitchen & lounge areas & an in-built bathroom.

*Tried, Tested and Trusted around Australia since 1973*

# TORINO

## Safety:

- Driver & passenger airbags
- ABS brakes
- ASR traction control
- ESP Electronic Stability Program

## Living and Bedroom:

- Motorised Multi-function Bed Combination (MBC) allows the large L-shaped lounge to electronically convert to a comfortable double bed with ease.
- The front seats with adjustable armrests rotate forming a larger living area
- Multi-position, removable table for dining
- ADR approved travel seating for 2 additional passengers
- Palsonic 48cm high definition digital TV/DVD
- TV amplified antenna

## Kitchen and Storage:

- Stainless steel gas 3-burner stove & sink combo
- 136L compressor fridge & freezer
- Drinking water filtration system
- 17L microwave oven
- Lightweight high pressure laminated Euro-Plywood construction
- High quality Innotech self-closing drawers
- Roller shutter doors for more practical storage access
- Extensive overhead roof locker storage
- Boot & under lounge storage

## Bathroom:

- The rear corner bathroom is easily accessible and the swivelling 17L cassette toilet allows for more spacious showering space.

## General:

- Automatic 6-speed transmission
- Powered skylight with roller screen & blind
- Powered side entry step
- REMifront cab blind system
- Premium F-65 titanium awning
- Outside hot/cold shower
- 120L fresh & 90L grey water tanks
- 4Kg LPG gas system
- Maintenance-free deep cycle house batteries
- Automatic charger
- Emergency start facility
- Electronic control system monitoring battery, condition, water levels, circuits, temperature & clock
- 12 and 240 Volt outlets
- Electrical locker & built-in camping ground lead
